ABOUT VIN CONSTRUCTION LTD

Vin Construction Limited is a reputable, innovative, and established company in Nigeria committed to delivering excellence in all aspects of our projects. We pride ourselves on the exceptional knowledge, skills, and expertise of our employees, who collaborate effectively to deliver successful projects within the stipulated time frame and budget.

Recognising the significance of relationships, we adopt a flexible and responsive collaborative approach that caters to the diverse needs of our clientele.

Originally established in 2016, Vin Construction Limited has several years of experience in civil construction, project management, hauling, material supply, dredging, pipeline and wellhead maintenance. Our extensive experience has enabled us to establish ourselves as a highly successful Nigerian-owned company. We possess a proven track record in a wide range of projects, including road and drainage construction, earthworks, hauling, material supply, dredging, residential and commercial building development, pipeline and wellhead maintenance.

VIN CONSTRUCTION LTD COMPRISES FOUR PRIMARY DIVISIONS:

- //CIVIL CONSTRUCTION
- //DREDGING
- //PIPE LINE AND WELLHEAD MAINTENANCE
- //HAULAGE & MATERIAL SUPPLY/PROCUREMENT

**FOUR
DIVISIONS
OF VIN**

These four divisions form the bedrock upon which Vin Construction Ltd is established, enabling us to successfully undertake a diverse range of projects. Our company possesses extensive experience and specialised machinery within each division, employing a formidable

team consisting of professional project managers, engineers, surveyors, architects, masons, and highly skilled plant operators.

Vin Construction Ltd has access to and operates a substantial civil plant and equipment fleet, which facilitates the team's management of all aspects of our projects.

Our Vision

We have established ourselves as a leader in our field due to our commitment to cultivating robust client relationships, our ability to overcome any challenge, and our unwavering emphasis on innovation and resourcefulness.

Our primary objective is to deliver exceptional product quality within the shortest possible timeframe, thereby maximising value for our esteemed clients.

OUR LOCATIONS

Current & Future

Vin Construction Ltd has the experience, flexibility and capacity to undertake projects within the various states within Nigeria.

Current

AKWA IBOM STATE:
Ifa Ikot Akpabio, Uyo, Akwa Ibom State

DELTA STATE:
Chrisvan Plaza Summit Road, Asaba, Delta State

RIVERS STATE:
Woji off Elemenwon
Port Harcourt, Rivers State

LAGOS STATE:
Kusenla Street, Lekki, PHI, Lagos

ABUJA:
Efab Estate Behind Shoprite Apo, Abuja

Future

Cross River State
Ogun State
Edo State
Abia State
Enugu State

VALUING OUR PEOPLE: **Our Most Important Assets**

At Vin Construction Ltd, we firmly believe that our most valuable assets are the individuals we employ. Our seasoned and professional team comprises Project Managers, Engineers, Supervisors, Health and Safety Officers, Surveyors, Machine Operators, and Mechanical Tradespeople, supported by a dedicated management and administrative team.

Our diverse project locations across Nigeria provide our employees with the flexibility to travel and enhance their skills and knowledge through the variety of projects we undertake. Our experienced team members serve as mentors to our new employees, guiding them and ensuring that all our client requirements are met while delivering projects that adhere to our accredited quality, safety, and environmental standards.

Training and Development

Leading the industry is effortless when you harness the drive and commitment of a talented team of individuals. Vin Construction Ltd consistently encourages the further training and development of its employees, empowering them to augment their skills, knowledge, and expertise, thereby facilitating their progression throughout the company.

We provide our employees with the opportunity to learn from some of the most formidable and experienced teams and professionals in the industry, enabling them to apply their skills and excel in their chosen fields.

Education

Vin Construction Ltd actively encourages employees to pursue further education in areas such as Civil Engineering, Surveying, Mechanical Engineering, Procurement, Accounting, Health and Safety, Human Resources, and Marketing.

Apprenticeship/Traineeship

Vin Construction Ltd supports employees in continuing their development and acquiring qualifications within the construction industry. We offer our apprentices the chance to embark on the challenges of our industry with the support and guidance of our long-term employees. Areas we

OUR TARGET: ZERO HARM

At every level of our workforce, we have made zero harm safety our primary objective. Our unwavering commitment is to provide a safe working environment for our employees and all visitors to our premises. Our senior management team is resolute in ensuring the safety of our employees, the public, and the environment at all times. Our ultimate aspiration is to attain zero harm within our workplace.

Safety Strategies:

- Ongoing supervision and training
- Incident reporting and investigation
- Daily site safety toolbox meetings
- Newsletter updates detailing health and safety concerns

PLANT EQUIPMENT

Our substantial investment in plant and equipment enables us to meet the diverse requirements of our clients across various industries. Our operators undergo comprehensive training in the safe operation of our equipment, and only the most proficient personnel undertake all final trim works on each project.

OUR FLEET

Our highly skilled in-house maintenance team adopts a proactive approach to ensure equipment availability, thereby guaranteeing the efficient delivery of our projects. Our machines are equipped with the latest machine control and guidance systems, which enhance machine accuracy and productivity, ultimately reducing the overall project cost of our clients. Our modern equipment adheres to all pertinent health and safety regulations, including hose burst protection and quick hitch design. Equipment undergoes daily inspections prior to use, ensuring compliance and safety.

OUR CORE DIVISIONS

CIVIL CONSTRUCTION

Vin Construction Ltd. undertakes a comprehensive range of civil construction projects, capable of handling contracts valued under N10 million to major complex works exceeding N10 billion. Our highly experienced management and engineering teams collaborate closely with clients, project managers, and principal consultants throughout the entire project lifecycle, from preliminary design to ultimate completion.

We maintain an extensive and modern fleet of plants and equipment, including excavators, dump trucks, dozers, graders, rollers, loaders, pavers, forklifts, cranes, concrete mixers, compactors, scrapers, asphalt mixing plants, and backhoes.

These assets enhance operational efficiency in project delivery, ultimately resulting in cost savings for our clients.

VIN CONSTRUCTION LTD PROJECTS INCLUDE:

- Road Construction
- Bulk Earthworks
- Drainage
- Bridges
- Airport Aprons
- Single-stage and large multi-stage sub-divisional development
- Sewer and Water Reticulation works
- Car parks
- Infrastructure and Camp Accommodation sites

Our skilled personnel, extensive knowledge, and pre-qualifications and accreditations enable us to undertake a diverse range of works, delivering innovative and cost-effective solutions to our clients. We have obtained safety accreditations, which are paramount to all our management, employees, and subcontractors, as a proven success.

DREDGING

...Creating Vast Innovations

OUR VISION

Vin Construction Ltd is a leading provider of comprehensive dredging and marine infrastructure solutions. With a commitment to quality, safety, and environmental stewardship, we specialize in a wide range of services that support global trade, coastal protection, and sustainable development.

To be the foremost dredging and marine contracting expert, consistently delivering best-in-class services that exceed client expectations while upholding the highest standards of safety and environmental responsibility.

OUR MISSION

Our team of experienced professionals, combined with a modern and versatile fleet of specialized equipment, allows us to deliver innovative and efficient solutions for both public and private sector clients.

To provide composite dredging and marine services of global standard, leveraging our expertise and technology to create value for our clients, our employees, and the communities in which we operate.

Core Services

Our core services are designed to address a variety of needs, from routine maintenance to large-scale infrastructure projects. We offer:

- Capital and Maintenance Dredging:

We perform dredging to create new or deepen existing channels, harbors, and berths, ensuring safe and efficient navigation for commercial and naval vessels. We also conduct maintenance dredging to remove accumulated sediment, keeping waterways at their required depths.

- Land Reclamation and Beach Nourishment:

We are experts in creating new land from the seabed for industrial, commercial, or residential development. Our beach nourishment services protect coastlines from erosion by replenishing sand on beaches and coastal areas.

- Environmental Dredging:

We specialize in the removal of contaminated sediments and pollutants from water bodies to restore ecosystems, improve water quality, and protect aquatic life. We employ precise and environmentally sensitive techniques to minimize disturbance.

- Offshore Works:

Our services include trenching and backfilling for subsea pipelines and cables, as well as seabed intervention and preparation for offshore energy projects, such as wind farms and oil and gas platforms.

- Sand and Aggregate Mining:

We provide efficient and reliable dredging for the extraction of sand and gravel, essential materials for the construction industry.

VIN CONSTRUCTION LTD

OUR FLEET AND TECHNOLOGY

OUR COMMITMENT TO EXCELLENCE

Our success is built on our state-of-the-art fleet of dredgers, including:

- Cutter Suction Dredgers (CSD):
Ideal for excavating hard-packed soil, rock, and clay.

-Trailing Suction Hopper Dredgers (TSHD):

Self-propelled vessels used for large-scale maintenance dredging and land reclamation projects in open water.

- Mechanical Dredgers:

Including backhoe and grab dredgers, which are effective for targeted excavation in confined spaces and for removing dense or contaminated material.

We also utilize advanced hydrographic surveying, monitoring, and project management tools to ensure precision, efficiency, and compliance throughout every project.

:Safety-

We maintain a proactive and robust QHSE (Quality, Health, Safety, and Environment) program, prioritizing the well-being of our employees, clients, and the public.

:Sustainability-

We are committed to minimizing our environmental impact, employing eco-efficient dredging techniques and implementing mitigation measures to protect marine ecosystems.

:Innovation-

We continuously invest in new technologies and methods to provide the most effective and cost-efficient solutions for our clients.

:Expertise-

Our team comprises professionals with expertise in hydraulic, civil, and marine engineering, geology, and ecology, ensuring a multi-disciplinary approach to every challenge.

5) Pipeline and wellhead Maintenance

Our company have a robust team dedicated to ensuring integrity and optimizing performance in the oil and gas infrastructure. Vin Construction Ltd is a premier provider of specialized maintenance services for critical pipeline and wellhead infrastructure within the oil and gas industry. With a steadfast commitment to safety, efficiency, and environmental stewardship, we offer comprehensive solutions

designed to maximize asset lifespan, prevent operational disruptions, and ensure the reliable flow of energy.

Core Competencies & Services:

Vin Construction Ltd specializes in a full spectrum of pipeline and wellhead maintenance services, leveraging advanced techniques and highly skilled personnel to deliver optimal results. Our core service offerings include:

A) Pipeline Maintenance:

Pipeline Inspection & Monitoring:

- 1) Inline Inspection (ILI) - Pigging services (smart pigs, utility pigs)
- 2) External Corrosion Direct Assessment (ECDA)
- 3) Internal Corrosion Direct Assessment (ICDA)
- 4) Close Interval Surveys (CIS)
- 5) Cathodic Protection (CP) System Installation, Monitoring and Troubleshooting
- 6) Drone-based inspections and aerial surveillance

Corrosion Management & Prevention:

- 1) Coating Application & Repair (Protective coatings, FBE, 3LPE)
- 2) Sacrificial Anode & Impressed Current CP System Maintenance
- 3) Chemical Inhibition Programs

Pipeline Repair & Rehabilitation:

- 1) Composite wrap repairs
- 2) Sleeve installations (Type A, Type B)
- 3) Hot tapping and stopple operations
- 4) Cut-out and replacement
- 5) Hydrostatic testing

Right-of-Way (ROW) Management:

- 1) Vegetation Control
- 2) Erosion Control
- 3) Patrolling and Surveillance

B) Wellhead Maintenance:

Routine Inspection & Preventative Maintenance:

- 1) Visual inspections and leak detection
- 2) Greasing and lubrication of valves and components
- 3) Functional testing of safety devices (SSSV, ESDVs)
- 4) Pressure testing of wellhead components

Wellhead Repair & Refurbishment:

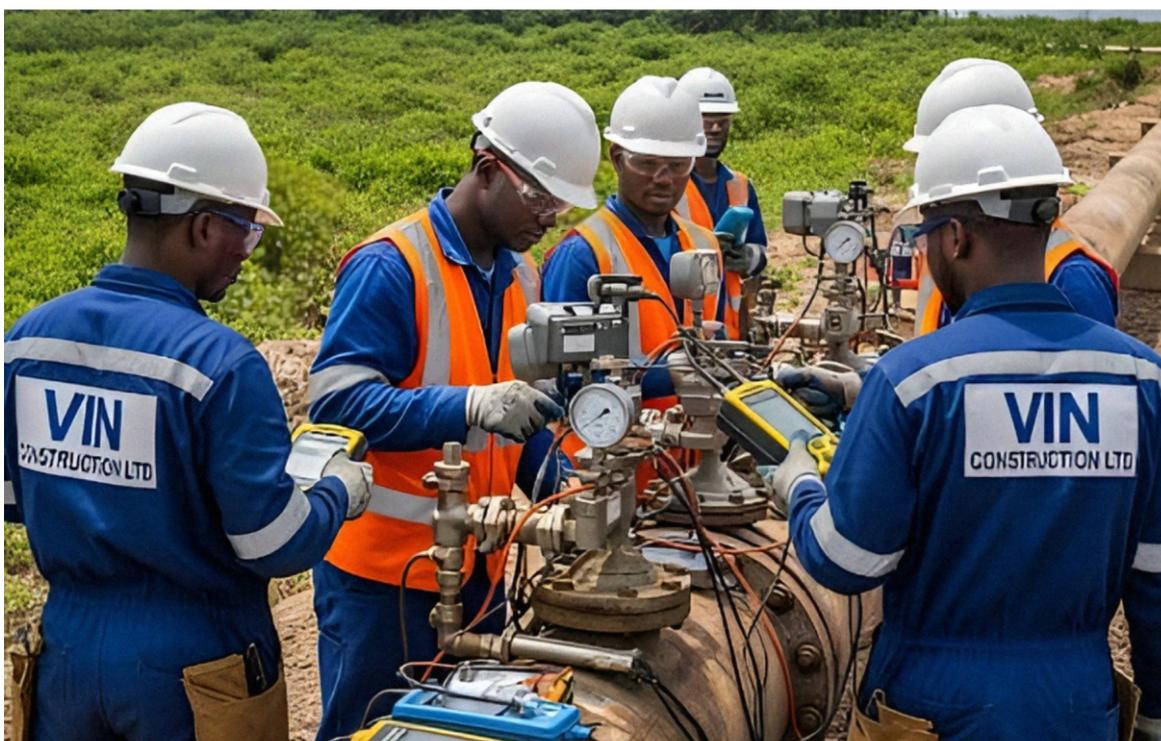

- 1) Valve replacement and repair
- 2) Packing replacement
- 3) Flange management and bolt tensioning
- 4) Minor leak repairs
- 5) Component replacement (e.g., gauges, chokes)

Wellhead Integrity Management:

- 1) Pressure monitoring and analysis
- 2) Annulus pressure management
- 3) Corrosion monitoring and mitigation
- 4) Erosion management

Tree & Component Overhaul:

- 1) On-site and workshop based overhaul of wellhead components and Christmas trees.

PIPELINE AND WELLHEAD MAINTENANCE

B) Wellhead Maintenance:

Routine Inspection & Preventative Maintenance:

- 1) Visual inspections and leak detection
- 2) Greasing and lubrication of valves and components

- 4) Pressure testing of wellhead components

Wellhead Repair & Refurbishment:

- 1) Valve replacement and repair
- 2) Packing replacement
- 3) Flange management and bolt tensioning
- 4) Minor leak repairs
- 5) Component replacement (e.g., gauges, chokes)

Wellhead Integrity Management:

- 1) Pressure monitoring and analysis
- 2) Annulus pressure management
- 3) Corrosion monitoring and mitigation
- 4) Erosion management

Tree & Component Overhaul:

- 1) On-site and workshop based overhaul of wellhead components and Christmas trees.

OUR COMPETITIVE ADVANTAGE:

- 1) **Experienced & Certified Workforce:** Our team comprises highly trained and certified engineers, technicians, and specialists with extensive experience in the oil and gas sector.
- 2) **Advanced Technology & Equipment:** We invest in state-of-the-art tools, inspection technologies, and repair methodologies to deliver precise and efficient solutions.
- 3) **Unwavering Commitment to Safety:** Safety is paramount in all our operations. We adhere to the highest international safety standards, promoting a culture of zero incidents.
- 4) **Quality Assurance:** We implement stringent quality control processes to ensure the integrity and reliability of all our maintenance services.
- 5) **Tailored Solutions:** We understand that each client's needs are unique. We offer customized maintenance programs and responsive services to address specific operational challenges.
- 6) **24/7 Rapid Response:** We provide rapid response capabilities for emergency repairs and critical operational support.

INDUSTRY FOCUS & CLIENT BASE

Vin Construction Ltd proudly serves a diverse range of clients across the oil and gas value chain including:

- Exploration and Production (E&P) Companies
- Midstream Operators (Pipeline Transmission Companies)
- Refineries & Petrochemical Plants
- Gas processing Facilities
- Terminal Operators.

FUTURE OUTLOOK & OUTGROWTH

Vin Construction Ltd is committed to continuous improvement, innovation, and strategic growth. We are constantly exploring new technologies and expanding our capabilities to meet the evolving demands of the energy sector. Our focus remains on building long-term partnership and contributing to the safety and efficient operation of global

HAULING & MATERIAL SUPPLY/ PROCUREMENT

Vin Construction Ltd has provided extensive haulage services and material procurement for a diverse clientele across various industries. As an industry leader, we are committed to enhancing material supplies and procurement processes through our innovative initiatives, which consistently deliver efficiencies to each project. We are dedicated to providing efficient, cost-effective, and dependable solutions that support the operational needs of various industries, ensuring projects proceed smoothly and on schedule.

Vin Construction Ltd offers an integrated suite of services designed to streamline your supply chain and logistics.

A Hauling & Transportation Services:

We operate a well-maintained fleet capable of handling diverse transportation needs, from bulk materials to specialized equipment. Our hauling services include:

Bulk Material Hauling:

- 1) Aggregates (sand, gravel, crushed stone)
- 2) Laterite and Earthfil
- 3) Cement and concrete products
- 4) Asphalt and paving materials
- 5) Construction debris and waste

Heavy Equipment Transport:

- 1) Mobilization and demobilization of construction machinery (excavators, bulldozers, loaders, swamp buggies, cranes)
- 2) Oilfield equipment and components
- 3) Industrial machinery

Specialized Transport:

- 1) Logistics for sensitive or high-value materials
- 2) Dedicated fleet services

B MATERIAL SUPPLY & PROCUREMENT:

We leverage a robust network of suppliers and an in-depth understanding of material specifications to source and deliver quality products directly to your site. Our procurement and supply capabilities include:

Construction Materials:

- 1) Aggregates (various grades and sizes)
- 2) Cement, Blocks, and Reinforcement Bars (Rebar)
- 3) Wood products (timber, plywood, formwork)
- 4) Pipes and fittings (PVC, HDPE, steel, culverts)
- 5) Roofing materials
- 6) Electrical and plumbing fittings

Oil & Gas Industry Materials:

- 1) Drilling fluids and chemicals (e.g. barite, bentonite, salt)
- 2) Pipes (line pipe, casing, tubing) and flowline materials
- 3) Valves, flanges, and fittings
- 4) Wellhead components
- 5) Safety equipments (PPE)
- 6) Specialized consumables

Industrial & Mechanical Spares:

- 1) Bearings, pumps, motors
- 2) Gaskets, seals and O-rings
- 3) Fasteners (bolts, nuts, washers)

General Consumables & Tools:

- 1) Welding consumables
- 2) Safety equipment (PPE)
- 3) Hand tools and power tools

Procurement Services:

- 1) Sourcing and vendor management
- 2) Price negotiation and bulk purchasing
- 3) Quality assurance and inspection of materials
- 4) Expediting and logistics coordination

OUR COMPETITIVE ADVANTAGE

-Reliability and Punctuality: We understand the critical importance of timely deliveries and operate with strict adherence to schedules.

-Extensive Fleet & Network: Our diverse fleet and strong supplier relationships enable us to meet varied client demands efficiently.

-Quality Assurance: We are committed to supplying only high-quality, compliant materials and ensuring all hauling operations meet professional standards.

-Experienced Team: Our drivers, logisticians, and procurement specialists are highly experienced and dedicated to delivering excellent service.

-Safety First Culture: We prioritize safety in all transportation and material handling operations, adhering to stringent safety protocols.

-Cost Effectiveness: We optimize routes and leverage purchasing power to provide competitive pricing without compromising on service or material quality.

-Customer Center Approach: We work closely with our clients to understand their specific needs and provide tailored solutions.

INDUSTRIES SERVED

Vin Construction Ltd serves a wide range of sectors, including;

- Construction & Infrastructure Development
- Oil & Gas (Upstream, Midstream, Downstream)
- Manufacturing
- Mining & Quarrying
- Agriculture
- General Commerce & Retail

HEALTH SAFETY, ENVIRONMENT, AND QUALITY (HSEQ)

Our commitment to HSEQ is foundational to our operations. We maintain robust HSEQ management systems to ensure:

1) Safety:

Protecting our personnel, clients, and the public through rigorous training, vehicle maintenance, and adherence to traffic laws and site regulations.

2) Environmental Responsibility: Minimizing our environmental footprint through efficient operations, responsible waste management, and compliance with environmental regulations.

3) Quality: Consistently delivering reliable hauling services and supplying materials that meet specified standards and client expectations.

FUTURE OUTLOOK & GROWTH

Vin Construction Ltd is focused on continuous improvement and strategic expansion. **We aim to:**

- 1) Invest in fleet modernization and advanced logistics technology
- 2) Expand our material supply network to offer a broader range of products
- 3) Develop new partnerships and explore opportunities in emerging markets
- 4) Maintain our reputation as a leader in efficient logistics and reliable supply.

Vin Construction Ltd is a leading civil construction company based in Nigeria, dedicated to delivering innovative, high-quality, and sustainable infrastructure solutions across diverse sectors. With a commitment to excellence, safety, and timely project delivery, we are your trusted partner in bringing complex visions to life.

Company Overview

Originally Established in 2016, Vin Construction Ltd has rapidly grown to become a reputable force in the Nigerian civil construction landscape. Our team comprises highly skilled and experienced engineers, project managers, and technical personnel, united by a passion for building robust and enduring infrastructure. We leverage cutting-edge technology and best practices to ensure every project meets the highest industry standards and client expectations.

Our Vision

To be the most reliable and innovative civil construction company in Nigeria, consistently exceeding client expectations and contributing significantly to the nation's infrastructural development.

Our Mission

To deliver superior civil construction projects through a commitment to quality, safety, efficiency, and environmental responsibility, while fostering long-term relationships with our clients and stakeholders.

CORE VALUES

-Excellence:

We strive for perfection in every aspect of our work, from planning and design to execution and handover.

-Integrity:

We operate with honesty, transparency, and ethical conduct in all our dealings.

-Safety:

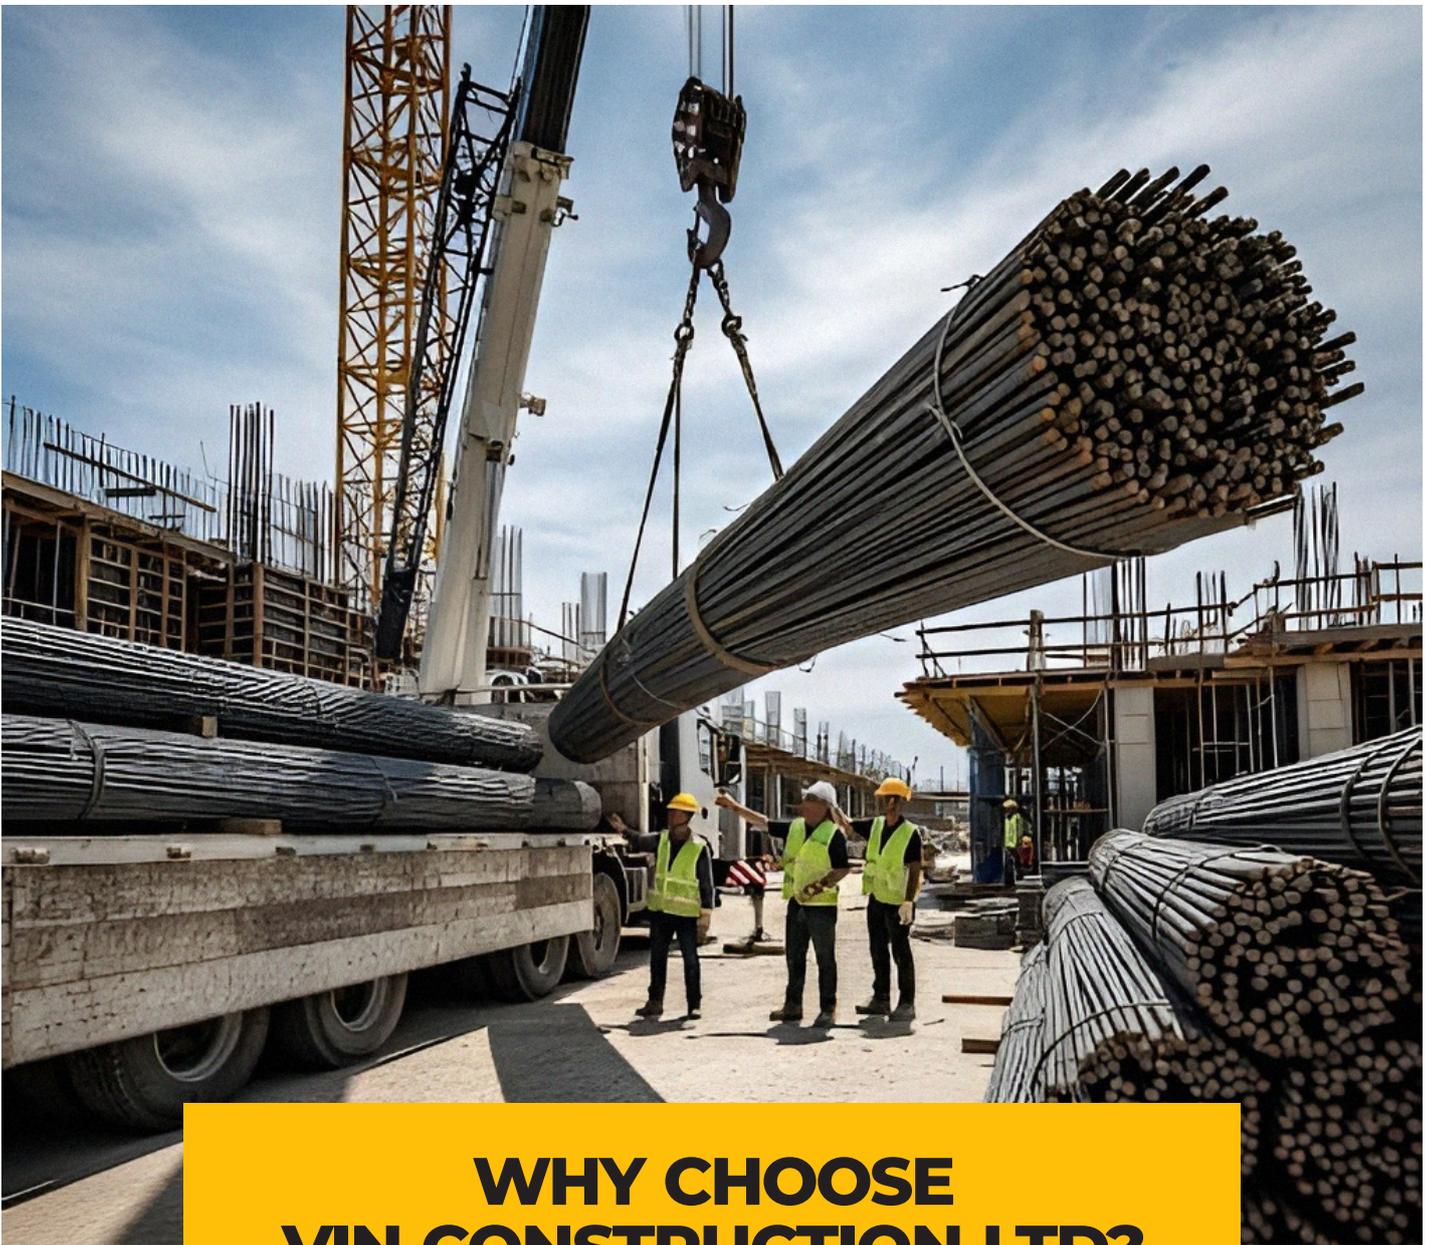

The well-being of our personnel, clients, and the public is paramount. We adhere to the strictest safety protocols and foster a culture of vigilance.

-Innovation:

We embrace new technologies, methodologies, and sustainable practices to optimize project delivery and outcomes.

-Collaboration:

We believe in strong partnerships with clients, suppliers, and communities to achieve shared success.

WHY CHOOSE VIN CONSTRUCTION LTD?

- **Proven Expertise:**
Decades of collective experience in civil construction.
- **Quality Assurance:** Unwavering commitment to delivering projects of the highest quality.
- **Safety First:**
A strong safety culture that prioritizes the well-being of all.
- **Timely Delivery:**
Efficient project management ensuring on-time and within-budget completion.
- **Innovative Solutions:**
Adoption of modern techniques and sustainable practices.
- **Client-Centric Approach:**
Dedicated to understanding and exceeding client expectations.
- **Local Knowledge:**
In-depth understanding of the Nigerian terrain, regulations, and socio-economic factors.

OUR SERVICES

Vin Construction Ltd offers a comprehensive range of civil construction services, tailored to meet the unique needs of public and private sector clients:

- **Road Construction & Rehabilitation:** Design, construction, and rehabilitation of highways, urban roads, rural roads, and access roads, including asphalt and concrete paving, drainage systems, and road furniture.
- **Bridge & Culvert Construction:** Construction of various types of bridges and culverts, from pedestrian bridges to large-span structures, ensuring structural integrity and longevity.
- **Drainage & Erosion Control:** Implementation of effective drainage systems, storm water management, and erosion control measures to mitigate environmental impact and protect infrastructure.
- **Site Preparation & Earthworks:** Comprehensive site clearing, excavation, grading, and earthmoving services for various development projects.
- **Building & Structural Works:** Construction of foundations, reinforced concrete structures, and other civil components for industrial, commercial, and public buildings.

- **Water & Wastewater Infrastructure:** Development and installation of water supply systems, sewage networks, treatment plants, and related infrastructure.
- **Shoreline Protection & Reclamation:** Expertise in coastal protection works, land reclamation, and marine civil engineering.
- **Project Management & Consultancy:** Providing expert project management, feasibility studies, engineering design, and technical consultancy services to ensure seamless project execution.

OUR APPROACH TO QUALITY & SAFETY

At VIN Construction Ltd, quality and safety are non-negotiable. We implement a rigorous Quality Management System (QMS) that covers every stage of our projects, from material procurement to final inspection. Our dedicated Health, Safety, and Environment (HSE) team ensures strict compliance with national and international safety standards, conducting regular training and risk assessments to maintain a safe working environment.

OUR CAPACITY

Vin Construction Ltd boasts a robust operational capacity, including:

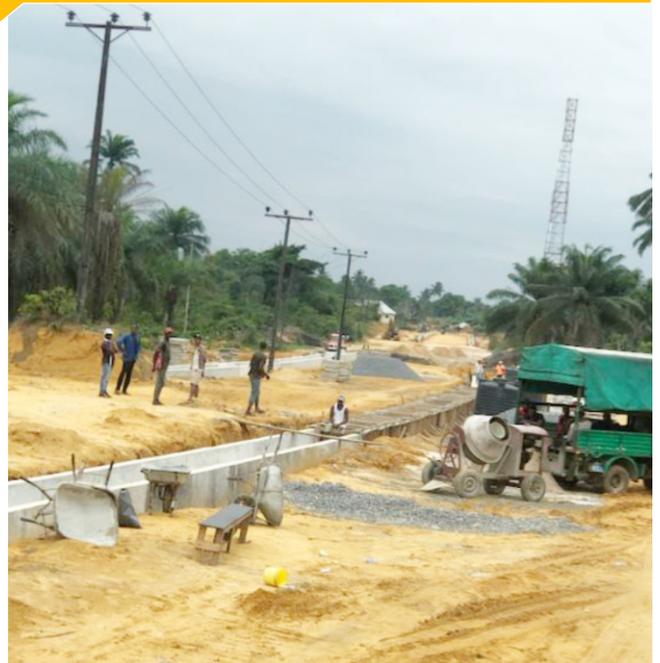

- A highly experienced and certified workforce.
- A modern fleet of heavy construction equipment and machinery.
- Well-equipped workshops for maintenance and fabrication.
- Strong financial backing and access to necessary resources.
- A proven track record of successful project delivery across Nigeria.
